My objectives

At the start of my career, I'd like to open many job opportunities, and then achieve long-term projects. I would supporting a company to produce concretely, while working for a studio to have a wide range of creativity.

My personality

tenacy

organization

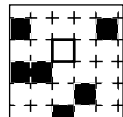

creativity

Keywords that represent my character and how I take on new projects.

Design method

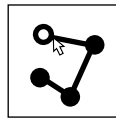

data analysis

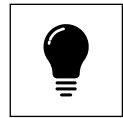

search other areas

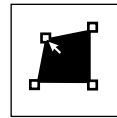

clearing the mind

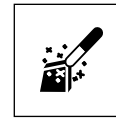

connecting dots

idea

adapt or change

realization

exposure

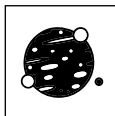

The design process begins with an analysis in different areas to reach the idea, implement it and expose it to the fullest way.
