

**Arianna Pavan**

**Project Leader,  
Product, Web and UI designer**

## Profile

### Project Leading Expertise + Young Creative Perspective

I have served as Project Leader and Industrial Designer for famous Hi End Audio brands part of McIntosh Group in the last 7 years. Particularly with Sonus faber, I **led the development** of high-impact products, including Custom Installation and Active speakers. This experience has equipped me with versatile knowledge in **Technology**, Software, Hardware and App development. I am eager to apply my expertise to new challenges.

## Experience

### 2018-Actual employment

#### **McIntosh Group**

Sonus faber - McIntosh Labs

Project leader and Industrial designer

R&D monitoring platform Administrator

### 2021-Actual consultant

#### **Saveshot**

Graphic, Web and UI designer

### Key Responsibilities and Activities:

Development and management from concept creation to Engineering release, ensuring alignment with project objectives.

- Define project **requirements** collaborating with stakeholders, including Cost of Goods Sold (COGS) analysis, development costs estimation, scheduling and risk analysis.
- Innovate aesthetic design **concepts** aligned with market trends and brand values, aiming for captivating and catching design.
- Oversaw project **milestones** based on **costs**, **team** availability and **quality** targets.
- Efficiently manage and **coordinate** Mechanical, Acoustic, Testing, and Debugging teams on a **daily basis**.
- **Daily management** of **Hardware and Software** Engineering activities, coordinating with suppliers and external consultants for seamless execution.
- Ensured compliance with pilot production quality standards, aesthetic requirements, and engineering release protocols.

### Key Achievements:

- Successfully **19** products launch, even during global emergency.
- Managed project budgets up to **\$750.000** per project.
- Internal and external Team management till 8 people per project.
- Up to 4 projects management simultaneously, ensuring efficient execution and delivery.
- 10 product **Awards**, such as Red Dot Design Award, EISA Best Product, What Hi-Fi.
- Administrator of the **monitoring platform** for R&D Team (15 members - Wrike).

### Geographically:

- Collaborating daily with teams and suppliers **globally**, mainly USA, China and North Europe, allows me to keep improving on **communication and remote management**.
- Willingness to travel or/and relocate within Europe.
- Traveled to/visited **22 countries**, 41 cities and 12 UNESCO sites.
